Code Ex. 6 - Personal Privacy

FYI, I understand Tom Wall has an overlapping briefing which may potentially go until 10:15, so we will need to be flexible. I'll still be prepared in Everglades for 10:00 a.m.

Objective:

Pre-brief Tom ahead of briefing Denise; this briefing is to obtain management feedback on HQ staff's recommendation on the approvability of the state-developed Pend Oreille TMDL for temperature. A face-to-face with EPA, the Kalispel Tribe, and State of WA is being planned (date TBD) for August.

Attached is an issue paper developed with others as briefing material for the 30 July pre-briefing for you on the Pend Oreille TMDL for temperature (followed by the 31 July briefing for Denise Keehner).

Also attached are 5 items referenced within the issue paper, a flow chart of EPA options/legal risk, and a watershed map.

I'll bring copies of the attachments for folks.
